What Is iCloud?

Apple stores iCloud data at data centers around the world, including the United States, Denmark, and China. Apple tries to store data in data centers that are close to the users, physical location. Apple uses places in Arizona, California, China, Denmark, Nevada, North Carolina, and Oregon.

Tim Cook 🤣 🖪 @tim_cook · Follow

Breaking ground in Reno today with @GovSandoval & @MayorSchieve as part of our data center expansion plan, one of many Apple initiatives which will contribute \$350 billion to the U.S. economy and create 20,000 new jobs over the next 5 years.

Let's Ask The Question, "What Kind Of Stuff Is On My iPhone"?

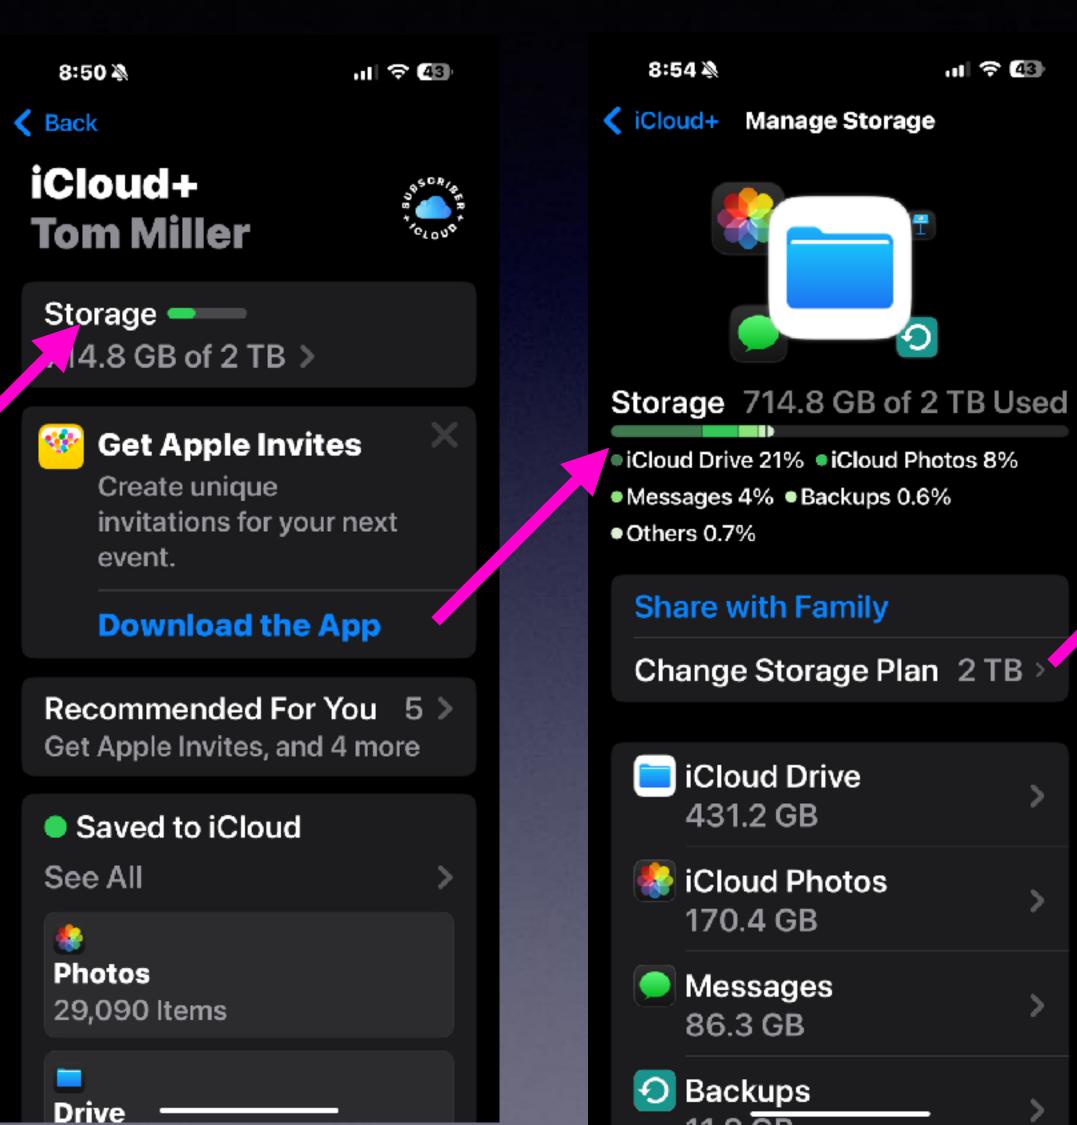

What if someone could see:

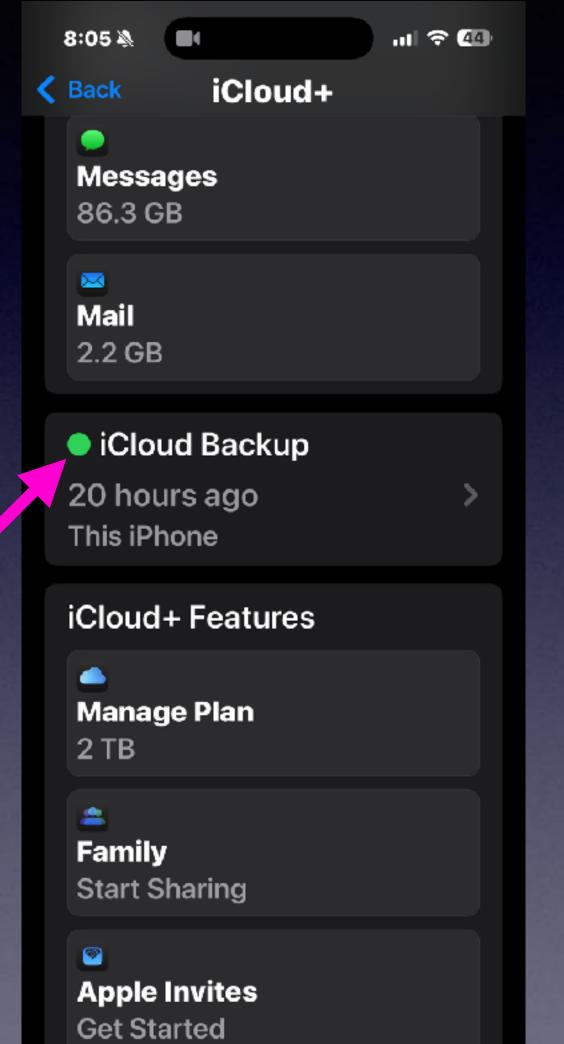

Your pictures.

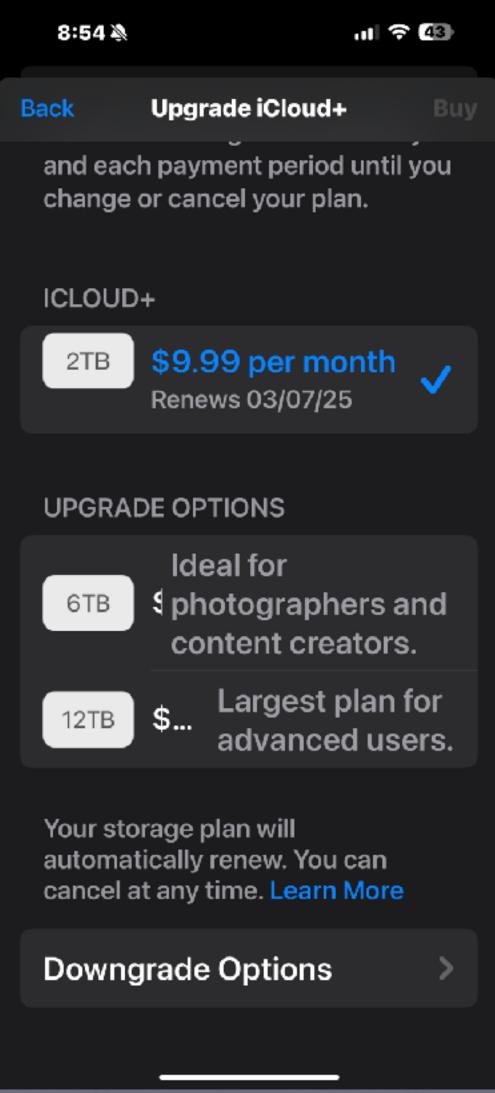

Your address, email, phone number. Any Notes you may have added. Read your texts and emails. Your family phone #s & addresses. Have access to your Facebook account. Find out where you have traveled. Your online banking or other apps.

What Does "iCloud Storage" Mean?

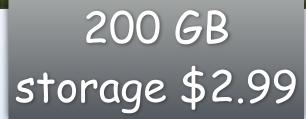

50 GB storage \$.99

2 TB storage \$9.99 50GB: \$0.99 200GB: \$2.99 **2TB**: \$9.99 6TB: \$29.99

United States⁴ (USD)

12TB: \$59.99

When you lose one device...your data is on your other devices and in your iCloud backup!
